

Donghyeop Lee (Ian)

 Sydney, NSW

Junior Developer with a solid foundation in full-stack development, specializing in React and Python. Experienced in agile methodologies and project management tools like Asana and Slack. Passionate about creating efficient, scalable solutions and eager to contribute to dynamic development teams.

Experience

Get 2 know

Feb 2023 – July 2023

Full Stack developer

- Developed and maintained full-stack applications using React for front-end development and Python for back-end services.
- Implemented e-commerce website functionalities using Odoo and integrated various third-party APIs to enhance system capabilities.
- Configured and managed email servers to ensure reliable communication between the platform and external clients.
- Collaborated with a team of developers in an agile environment, using Asana for task management and Slack for communication.
- Applied best practices in version control (Git) and software development, contributing to continuous improvement and deployment processes.

Miroma Project Factory

May 2024 -

software tester

- Developed detailed and comprehensive test cases to ensure thorough coverage of software functionalities and features.
- Managed and organized tasks using Asana, ensuring efficient workflow and timely completion of testing activities.
- Collaborated with cross-functional teams and communicated effectively using Slack, facilitating smooth information flow and issue resolution.
- Fully understood project requirements and specifications to ensure accurate and effective testing.
- Updated and maintained project documentation to reflect changes, enhancements, and testing outcomes, ensuring all stakeholders were informed and aligned.
